

YASH WADBUDE

CybersecurityAnalyst|VAPT|Penetration Testing

Address: At post Mendhala Tah.- Narkhed Dist.- Nagpur 441301 | Email: yashwadbude2484@gmail.com |

Phone: 9604451368 | [Portfolio: https://personal-portfolio-4goa.onrender.com](https://personal-portfolio-4goa.onrender.com)

SUMMARY

Cybersecurity Analyst with hands-on experience in Vulnerability Assessment and Penetration Testing (VAPT), web application security, and ethical hacking, backed by a B.Tech in Computer Technology and an internship in offensive security. Skilled in Kali Linux, Burp Suite, Nmap, and Metasploit for identifying, exploiting, and remediating security vulnerabilities including SQL Injection, XSS, and authentication flaws in line with OWASP Top 10 standards. Experienced in reconnaissance, CVE research and technical vulnerability reporting. Seeking an entry-level Cybersecurity Analyst / VAPT / Penetration Tester role to apply and expand technical expertise in offensive security.

TECHNICAL SKILLS

- Operating Systems: Kali Linux, Linux, Windows
 - Security Tools: Burp Suite, Nmap, Metasploit, Hydra, Gobuster
 - Web Security: Web Application Penetration Testing, Vulnerability Assessment, SQL Injection (SQLi), Cross-Site Scripting (XSS), Clickjacking, Authentication Testing, File Upload Testing, Directory Enumeration
 - Networking: TCP/IP, HTTP/HTTPS, DNS, SSH
 - Programming/Scripting: Java, Python, MySQL, Bash
 - Other: Ethical Hacking, OWASP Top 10, CVE Research, Vulnerability Reporting, Proof-of-Concept (PoC) Documentation, Risk Assessment
-

EXPERIENCE

Cyber Security Intern — The Drop Organization (DCSC Internship) May 2026 – July 2026

- Performed Vulnerability Assessment and Penetration Testing (VAPT) on web applications using Kali Linux and industry-standard tools, applying ethical hacking methodologies including reconnaissance, enumeration, and CVE research to identify and validate security vulnerabilities.
 - Conducted hands-on penetration testing using Burp Suite, Nmap, Metasploit, Hydra, and Gobuster in simulated Linux-based environments.
 - Authored technical proof-of-concept (PoC) documentation and vulnerability reports detailing findings, severity ratings, and remediation recommendations.
 - Strengthened analytical, problem-solving, and technical reporting skills through practical cybersecurity assignments and lab-based assessments.
-

PROJECTS

Web Security Scanner

- Developed a web-based vulnerability scanner to detect common web application security flaws including SQL Injection (SQLi), Cross-Site Scripting (XSS), Clickjacking, and exposed directories.
- Integrated a vulnerability scanning API to automate detection of security weaknesses across target web applications.
- Generated structured vulnerability reports with detailed findings, severity levels, and recommended fixes.

Personal Portfolio Website

- Designed and developed a personal portfolio website showcasing technical skills, projects, and security certifications to a professional/recruiter audience.
-

EDUCATION

Bachelor of Technology (B.Tech), Computer Technology CGPA: 7.39

Priyadarshini College of Engineering, Nagpur

CERTIFICATIONS

- Cyber Security Internship Certificate — The Drop Organization (July 2026)
 - DROP Certified Security Course (DCSC) — The Drop Organization (Feb 2026)
 - CyberOps Associate — Cisco Networking Academy (Feb 2026)
-

ACHIEVEMENTS

- Earned the TryHackMe 90-Day Streak Badge for consistent hands-on practice in offensive security.
 - Completed multiple hands-on labs through PortSwigger Web Security Academy covering web application vulnerabilities.
 - Built a strong practical foundation in Linux, networking, and offensive security through continuous self-directed training.
-

ADDITIONAL SKILLS

Teamwork, Adaptability, Problem-Solving, Communication, Time Management
